

topicco

The TOPICCO Series consists of generously-sized colourful vehicles which have been designed with attention to detail. It includes a ship, a fire truck, a lorry and a construction roller. These vehicles release the child's natural tendency to play joyfully in the "adult" world and to engage in role-playing, which makes for a great training in teamwork skills. The TOPICCO Series offers a number of moving parts and educational panels that stimulate motor skills and intellectual development of young children.
